

CITY OF LOGANVILLE

Curbside Collection Program

WHAT:

The City of Loganville Curbside Collection Program provides you with an easy and efficient method to store your household waste and reduce your waste generation through recycling. Each resident receives a Roll Cart for non-recyclable solid waste and a new (18) gallon Recycling Bin that will allow you to easily recycle.

Our contractor, Waste Pro, is contracted to empty the contents of the Roll Cart and any additional bagged waste each week. If you regularly have more than fits in one cart, please call City Hall for a second one.

No tires, used oil, furniture, liquid paint or chemicals, yard waste or white goods are to be placed for collection. Both roll cart and recycling bin should be placed curbside by no later than **7:00 AM** on the designated collection day.

WHEN:

The City of Loganville Curbside Collection Program will be serviced by Waste Pro on three different days. Please contact City Hall for service day information for your home.

WASTE PRO'S SERVICES DEFINED

Garbage: If it is in a plastic garbage bag or in the provided 96 gallon roll cart Waste Pro will pick it up.

Recycling: Place all recyclable items in the provided bin. If your recycling exceeds the bins capacity, Waste Pro will gladly make arrangements to provide a second bin for you. Overflow around busy holidays is expected. We simply ask that you break all boxes down and place next to bin.

Recyclable Items: Glass, aluminum, plastics, milk jugs, paper and cardboard.
